

Spending time together as a family benefits your children in many ways.

FAMILY ACTIVITIES

Go for an autumn walk—how many signs of autumn can you see?

Visit the beach—can you find a pebble with a hole going all the way through it?

Play I spy with my little eye, something beginning with...

s, a, t, p, i, n, m and d are the letter sounds we've learnt so far eg: d for duck

Dance together! What's your favourite music to dance to?

Make a picture using shells—you don't have to stick the shells down, arrange them and take a photo of your creation, then you can use the shells another time.

Play hide and seek—where's your best hiding place?

Make a cake together - how will you choose to decorate it?

Play a board or card game of your choice. Practice taking turns and learning that not being the winner is ok.

It's Harvest Festival time—try a variety of different breads, which do you like the best? Why?

Use an empty plastic bottle to collect rain water—how much can you collect? What could you use it for?

Collect a group of 5 objects eg: pegs, pasta pieces, etc. Work together to find out how many different ways you can arrange them? Eg: in one long line, 2 at the top, 2 at the bottom, 1 in the middle, etc.

Draw a picture of the new friends you've made since starting school. Can you remember their names?

If you have time, choose an activity to do and send us some photographs!
